

CITY OF LODI

COUNCIL COMMUNICATION

AGENDA TITLE: Public Hearing to receive public comments on the Final Draft of the Regional Household Hazardous Waste Element (HHWE).

MEETING DATE: July 15, 1992

PREPARED BY: Assistant City Manager

- RECOMMENDED ACTION:
- a) That City Council receive public comments on the Final Draft Household Hazardous Waste Element
 - b) That City Council adopt the Household Hazardous Waste Element
 - c) That City Council adopt the attached Resolution Requesting the Formation of a County Service Area

BACKGROUND INFORMATION: In its original form, AB 939 called for Household Hazardous Waste to comprise one chapter of the Source Reduction and Recycling Element. Subsequent legislation required this chapter to become a complete plan unto itself. On 1/16/91, City Council approved a letter of support to the County to explore the development of a Regional Household Hazardous Waste plan. The County Public Works Department-Solid Waste Division, took the lead in preparing the Household Hazardous Waste plan using input from City Managers and staff of the seven incorporated cities. Much of the discussion during plan preparation centered around finding some mechanism to finance implementation.

On 1/8/92, the Lodi SWAM Force conducted a public hearing on the Preliminary Draft. This hearing was **very** well advertised. Unfortunately, no one showed up. Today's public hearing on the Final Draft Household Hazardous Waste Element has been properly noticed, and at the time this Council Communication was written, the News-Sentinel had planned a story to remind the public of this hearing. The Final Draft Household Hazardous Waste Element is now presented to City Council for your consideration.

The incorporated cities and the county are essentially approaching Household Hazardous Waste management from a zero base. None of us have significant Household Hazardous Waste programs in place. It therefore makes perfect sense for **all** local governments to join forces and create a regional plan which will allow us to share resources and achieve economies of scale.

APPROVED

THOMAS A. PETERSON

For the short term, the Household Hazardous Waste Element calls for a series of one-day collection events throughout the County. **An** intensive public education program will also be implemented to encourage source reduction of Household Hazardous Waste. By the year 2001, a permanent Household Hazardous Waste facility, staffed with County or contract employees will be established in some central location in the County. This facility will accept Household Hazardous Waste and will act as a home base for a mobile unit which will be used to conduct periodic collection events around the County.

As proposed in the Household Hazardous Waste Element, implementation would be financed through a County Service Area, whereby an annual charge of **\$4.00** would be levied on all dwelling units in the County. The County Board of Supervisors has requested that all cities adopt the attached resolution requesting the formation of a County Service Area so revenues may be collected.

It is extremely frustrating when the State creates laws mandating local governments to implement programs that **can** only be financed by raising local revenues. However, this regional plan will provide the most cost-effective method possible for complying with State law.

FUNDING: Not applicable.

Respectfully submitted,

Jerry L. Glenn
Assistant City Manager
